## **8th Grade Common Core Math Workbook: Additional Problems to Complement 8th Grade Common Core 16 Day Math Textbook plus Practice Final Exam** John D. Forlini

This book is a Common Core workbook for students taking 8th grade math. It can be used prior or during the 8th grade to help students excel. At the end of the book there is a typical 50 question final exam with solutions and helpful hints. The many problems in this workbook follows the 16 day course book titled "Eighth Grade Common Core Math; 16 days to Mastering". Both the text and workbook are perfect for 8th grade students. It is also perfect for anyone who wants to have a solid understanding of math. It covers the basics of general math, algebra, geometry, and statistics. The Eighth Grade Common Core Math book mentioned above is a text book for 8th grade. It had just the right amount of problems and solutions to orient the student for 8th grade Common Core. It was developed to teach students the material that will be covered in the classrooms that follow Common Core curriculum. This workbook complements this Eighth Grade Common Core Math Book with more problems and a final exam. This workbook provides additional problems to go beyond mastering the subject. It will make the student totally proficient. Solving these math problems will make math second nature and will endure through a student's lifetime. Taking the practice final exam will provide the student with feedback to his or her proficiency. The workbook "locks in" what was learned in the course book "Eighth Grade Common Core Math; 16 days to Mastering". The workbook follows the daily schedule and is thus divided into 16 segments that match the 16 day text book. While this workbook is divided into 16 distinct sections matching the 16 day text, a student and teacher can certainly develop their own pace. The workbook, just like the original course book, is designed for self-teaching by a student or-for a teacher or parent working with the student. Just like the textbook, this workbook is also valuable for preparing for the SAT and ACT tests.
