Struggle Against the State

Ashok Swain

Struggle Against the State Ashok Swain

Many developing countries pursue policies of rapid industrialization in order to achieve faster economic growth. Some policies cause displacement forcing many individuals to take up a fight against the state. Interestingly some of these dissenting individuals are more successful in organizing their protests than others. In this book, Ashok Swain demonstrates how displaced people mobilize to protest with the help of their social networks. Studying protests against large industrial and development projects, Swain compares the mobilization process between a traditionally protest rich and a protest poor region in India to explain how social network structures are a key component to understand this variation. He reveals how improved mobilization capability coincides with their evolving social network structure thanks to recent exposure to external actors like religious missionaries and radical left activists. The in-depth examination of the existing literature on social mobilization and extensive fieldwork conducted in India make this book a well-organized and useful resource to analyze protest mobilization in developing regions.
