Management Information Systems Ken J. Sousa, Effy Oz

Drawing from the latest developments and practices from the field, MANAGEMENT INFORMATION SYSTEMS, 7e combines a wealth of case studies and real-world examples to provide a clear emphasis on the business and management elements of information technology. The new edition offers the most current coverage available, including expanded discussions of social networking, IT security, mobile computing, and much more. From overviews of the information age to online business and business intelligence, readers gain a sound balance of the technical and business elements of information technology. In addition, numerous business cases integrated throughout the text enable readers to apply what they learn to real-world practice--equipping them with skills they can immediately put into action in the business world.

From reader reviews:

Gilbert Albright:

Your reading sixth sense will not betray an individual, why because this Management Information Systems book written by well-known writer we are excited for well how to make book that can be understand by anyone who else read the book. Written in good manner for you, still dripping wet every ideas and producing skill only for eliminate your own hunger then you still question Management Information Systems as good book but not only by the cover but also through the content. This is one guide that can break don't determine book by its cover, so do you still needing one more sixth sense to pick this particular!?! Oh come on your reading through sixth sense already alerted you so why you have to listening to an additional sixth sense.

Samuel Lester:

This Management Information Systems is new way for you who has attention to look for some information as it relief your hunger of knowledge. Getting deeper you onto it getting knowledge more you know or else you who still having bit of digest in reading this Management Information Systems can be the light food for you personally because the information inside this particular book is easy to get through anyone. These books produce itself in the form which is reachable by anyone, sure I mean in the e-book web form. People who think that in guide form make them feel tired even dizzy this publication is the answer. So there isn't any in reading a guide especially this one. You can find what you are looking for. It should be here for you actually. So , don't miss that! Just read this e-book type for your better life and knowledge.

Tami Anders:

In this era which is the greater person or who has ability to do something more are more important than other. Do you want to become certainly one of it? It is just simple way to have that. What you need to do is just spending your time very little but quite enough to have a look at some books. Among the books in the top record in your reading list is Management Information Systems. This book which can be qualified as The Hungry Mountains can get you closer in turning into precious person. By looking up and review this e-book you can get many advantages.

Marcela Beach:

Reading a e-book make you to get more knowledge as a result. You can take knowledge and information coming from a book. Book is prepared or printed or outlined from each source this filled update of news. On this modern era like at this point, many ways to get information are available for you actually. From media social just like newspaper, magazines, science reserve, encyclopedia, reference book, fresh and comic. You can add your understanding by that book. Isn't it time to spend your spare time to open your book? Or just seeking the Management Information Systems when you required it?
