Mineral Processing and Extractive Metallurgy: 100 Years of Innovation

Mineral Processing and Extractive Metallurgy: 100 Years of Innovation

Here is the information you need to face the ever-increasing technological, economic, environmental, and geopolitical challenges of this industry and ensure long-term productivity and growth for your organization.

Mineral Processing and Extractive Metallurgy presents more than a century of innovation drivers that have advanced the mineral processing industry. Trends, developments, and improvements are discussed in depth, and likely areas for future innovations are explored.

This proceedings from the successful 2013 symposium features more than 75 subject-matter experts. These authors share their knowledge, experience, and passion for the metallurgical industry.

Topics include:

- Comminution equipment, modeling, and instrumentation
- Magnetic, electrostatic, density-based, dense medium, and liquid/solid separations
- Nickel and cobalt, zinc and lead, copper and rare earth hydrometallurgy, and gold and silver extraction
- Innovations in pyrometallurgy, copper smelting, and the iron and steel industry, and refining of platinum group metals
- Process mineralogy and laboratory automation, analytical chemistry, and measurement of mineral structure and surface chemistry
- Environmental breakthroughs in acid rock drainage, tailings management, water and brine treatment, chemical and bacterial water treatment, and air pollution control

The papers are accompanied by abundant full-color photographs, figures, illustrations, charts, and author biographies.

From reader reviews:

Ciara Wolfe:

Why don't make it to be your habit? Right now, try to ready your time to do the important work, like looking for your favorite publication and reading a guide. Beside you can solve your short lived problem; you can add your knowledge by the guide entitled Mineral Processing and Extractive Metallurgy: 100 Years of Innovation. Try to make book Mineral Processing and Extractive Metallurgy: 100 Years of Innovation as your pal. It means that it can being your friend when you really feel alone and beside those of course make you smarter than in the past. Yeah, it is very fortunated for you. The book makes you far more confidence because you can know every thing by the book. So , we should make new experience and knowledge with this book.

Linda Banks:

Many people spending their time frame by playing outside together with friends, fun activity together with family or just watching TV 24 hours a day. You can have new activity to pay your whole day by looking at a book. Ugh, ya think reading a book will surely hard because you have to bring the book everywhere? It alright you can have the e-book, bringing everywhere you want in your Mobile phone. Like Mineral Processing and Extractive Metallurgy: 100 Years of Innovation which is obtaining the e-book version. So , why not try out this book? Let's view.

Frank Hudson:

Do you like reading a publication? Confuse to looking for your preferred book? Or your book had been rare? Why so many concern for the book? But just about any people feel that they enjoy regarding reading. Some people likes studying, not only science book but also novel and Mineral Processing and Extractive Metallurgy: 100 Years of Innovation or even others sources were given know-how for you. After you know how the great a book, you feel desire to read more and more. Science e-book was created for teacher or maybe students especially. Those textbooks are helping them to include their knowledge. In other case, beside science publication, any other book likes Mineral Processing and Extractive Metallurgy: 100 Years of Innovation to make your spare time far more colorful. Many types of book like this one.

Ricky Bodkin:

As a scholar exactly feel bored for you to reading. If their teacher requested them to go to the library in order to make summary for some e-book, they are complained. Just small students that has reading's internal or real their leisure activity. They just do what the trainer want, like asked to the library. They go to presently there but nothing reading really. Any students feel that reading is not important, boring along with can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important to suit your needs. As we know that on this age, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore this Mineral Processing and Extractive Metallurgy: 100 Years of Innovation

can make you feel more interested to read.
