Designing Sustainability: Making radical changes in a material world

Stuart Walker

Designing Sustainability: Making radical changes in a material world Stuart Walker

What is the relationship between design, sustainability, inner values and spirituality? How can we create designs that provide a convincing alternative to unsustainable interpretations of progress, growth, consumerism and commercialism? Building on the arguments first advanced in his widely acclaimed books *Sustainable by Design* and *The Spirit of Design*, Stuart Walker explains how we can achieve the systemic changes needed to address the challenges of sustainability.

Challenging common assumptions about the nature of our contemporary material culture and its relationship to human flourishing, the author introduces approaches to design that draw inspiration from nature, summon the human imagination and create outcomes which are environmentally responsible and socially just, as well as meaningful and enriching at a personal level.

Offering a unique and original contribution to this vital debate, *Designing Sustainability* is destined to become essential reading for students on courses in design and sustainability and for design practitioners looking for a deeper, more meaningful basis for their work.
