## **LTE Self-Organising Networks (SON): Network Management Automation for Operational Efficiency**

Covering the key functional areas of LTE Self-Organising Networks (SON), this book introduces the topic at an advanced level before examining the state-of-the-art concepts. The required background on LTE network scenarios, technologies and general SON concepts is first given to allow readers with basic knowledge of mobile networks to understand the detailed discussion of key SON functional areas (self-configuration, -optimisation, -healing). Later, the book provides details and references for advanced readers familiar with LTE and SON, including the latest status of 3GPP standardisation.

Based on the defined next generation mobile networks (NGMN) and 3GPP SON use cases, the book elaborates to give the full picture of a SON-enabled system including its enabling technologies, architecture and operation. "Heterogeneous networks" including different cell hierarchy levels and multiple radio access technologies as a new driver for SON are also discussed.

- Introduces the functional areas of LTE SON (self-optimisation, -configuration and -healing) and its standardisation, also giving NGMN and 3GPP use cases
- Explains the drivers, requirements, challenges, enabling technologies and architectures for a SON-enabled system
- Covers multi-technology (2G/3G) aspects as well as core network and end-to-end operational aspects
- Written by experts who have been contributing to the development and standardisation of the LTE self-organising networks concept since its inception
- Examines the impact of new network architectures ("Heterogeneous Networks") to network operation, for example multiple cell layers and radio access technologies

### **From reader reviews:**

#### **Federico Crouch:**

Do you have favorite book? For those who have, what is your favorite's book? Book is very important thing for us to learn everything in the world. Each guide has different aim or perhaps goal; it means that publication has different type. Some people sense enjoy to spend their time to read a book. These are reading whatever they consider because their hobby is definitely reading a book. Consider the person who don't like looking at a book? Sometime, individual feel need book if they found difficult problem or even exercise. Well, probably you'll have this LTE Self-Organising Networks (SON): Network Management Automation for Operational Efficiency.

#### **James Babb:**

With other case, little men and women like to read book LTE Self-Organising Networks (SON): Network Management Automation for Operational Efficiency. You can choose the best book if you appreciate reading a book. Providing we know about how is important some sort of book LTE Self-Organising Networks (SON): Network Management Automation for Operational Efficiency. You can add knowledge and of course you can around the world by a book. Absolutely right, because from book you can learn everything! From your country until eventually foreign or abroad you may be known. About simple matter until wonderful thing you may know that. In this era, we are able to open a book or searching by internet product. It is called e-book. You need to use it when you feel bored stiff to go to the library. Let's learn.

#### **Bonnie Lugo:**

The book LTE Self-Organising Networks (SON): Network Management Automation for Operational Efficiency give you a sense of feeling enjoy for your spare time. You may use to make your capable far more increase. Book can being your best friend when you getting anxiety or having big problem together with your subject. If you can make looking at a book LTE Self-Organising Networks (SON): Network Management Automation for Operational Efficiency to get your habit, you can get much more advantages, like add your own personal capable, increase your knowledge about a number of or all subjects. You are able to know everything if you like available and read a publication LTE Self-Organising Networks (SON): Network Management Automation for Operational Efficiency. Kinds of book are a lot of. It means that, science guide or encyclopedia or others. So , how do you think about this reserve?

#### **Kathleen Jones:**

People live in this new time of lifestyle always attempt to and must have the extra time or they will get large amount of stress from both way of life and work. So , if we ask do people have extra time, we will say absolutely without a doubt. People is human not only a robot. Then we request again, what kind of activity have you got when the spare time coming to a person of course your answer will probably unlimited right. Then do you ever try this one, reading textbooks. It can be your alternative throughout spending your spare

time, often the book you have read is definitely LTE Self-Organising Networks (SON): Network Management Automation for Operational Efficiency.
