Star Wars Psychology: Dark Side of the Mind

Star Wars Psychology: Dark Side of the Mind

From its very first frame, the Star Wars series created a compelling universe with complex characters and engaging storytelling. In advance of the highly anticipated new movie, *Star Wars: The Force Awakens*, this collection offers a fascinating psychological analysis of every aspect of George Lucas's richly rendered galaxy. Expert contributors led by Travis Langley (*Batman and Psychology: A Dark and Stormy Knight*; *The Walking Dead Psychology: Psych of the Living Dead*) examine such topics as family ties, gender, prejudice, values, villainy, and heroism itself, including a look at how psychoanalysis and archetypes directly shaped the original trilogy. They shine a light into the hidden part of the psyche and reveal the ultimate lesson of *Star Wars*.

Contributors include :

Colt J. Blunt * Jenna Busch * Jim Davies * Frank Gaskill * Donald F. Glut (*The Empire Strikes Back*) * Jennifer Golbeck * Carrie Goldman * Jonathan Hetterly * Dana Klisanin * Joe Kraemer * Elizabeth A. Kus * Alex Langley * Travis Langley * Craig Pohlman * Clay Routledge * Billy San Juan * Jay Scarlet * Janina Scarlet * Laura Vecchiolla * Mara Wood * Bryan Young * E. Paul Zehr
