The Republic and The Laws (Oxford World's Classics) Cicero

Cicero's *The Republic* is an impassioned plea for responsible government written just before the civil war that ended the Roman Republic in a dialogue following Plato. Drawing on Greek political theory, the work embodies the mature reflections of a Roman ex-consul on the nature of political organization, on justice in society, and on the qualities needed in a statesman. Its sequel, *The Laws*, expounds the influential doctrine of Natural Law, which applies to all mankind, and sets out an ideal code for a reformed Roman Republic, already half in the realm of utopia.

This is the first complete English translation of both works for over sixty years and features a lucid Introduction, a Table of Dates, notes on the Roman constitution, and an Index of Names.
