DSM-5® Made Easy: The Clinician's Guide to Diagnosis

James Morrison MD

DSM-5® Made Easy: The Clinician's Guide to Diagnosis James Morrison MD

In this indispensable book, master diagnostician James Morrison presents the spectrum of diagnoses in DSM-5 in an accessible, engaging, clinically useful format. Demystifying DSM-5 criteria without sacrificing accuracy, the book includes both ICD-10-CM and ICD-9-CM codes for each disorder. It also includes the Global Assessment of Functioning (GAF) Scale (from DSM-IV-TR), with a clear rationale for its continued use. More than 130 detailed case vignettes illustrate typical patient presentations; down-to-earth discussions of each case demonstrate how to arrive at the diagnosis and rule out other likely possibilities. Providing a wealth of diagnostic pointers, Morrison writes with the wisdom and wit that made his guide to the prior DSM a valued resource for hundreds of thousands of clinicians and students. His website (www.guilford.com/jm) offers additional discussion and resources related to psychiatric diagnosis and DSM-5.
