## The Routledge Handbook of Literacy Studies (Routledge Handbooks in Applied Linguistics)

The Routledge Handbook of Literacy Studies offers a comprehensive view of the field of language and literacy studies. With forty-three chapters reflecting new research from leading scholars in the field, the handbook pushes at the boundaries of existing fields and combines with related fields and disciplines to develop a lens on contemporary scholarship and emergent fields of inquiry.

The Handbook is divided into eight sections:

- The foundations of literacy studies
- Space-focused approaches
- Time-focused approaches
- Multimodal approaches
- Digital approaches
- Hermeneutic approaches
- Making meaning from the everyday
- Co-constructing literacies with communities

This is the first handbook of literacy studies to recognise new trends and evolving trajectories together with a focus on radical epistemologies of literacy. *The Routledge Handbook of Literacy Studies* is an essential reference for undergraduate and postgraduate students and those researching and working in the areas of applied linguistics and language and literacy.
