The first responsible assessment of the entire range of theories behind Giza, this exhaustively researched book plunges into the history of recent explorations of the legendary site. Essential background information necessary to place recent expeditions and political wranglings in context is integrated with the true stories behind the explorations over the last 30 years, including the authors' clandestine trips into the secret chambers of the Great Pyramid. This book also exposes apparent cover-ups and conspiracies and delivers the truth about one of the world's most important ancient monuments.
