Increase Your Word Power: Using Your Senses to Improve Your Vocabulary

Dorothy A. Fontaine Ph.D.

Go outside to study vocabulary. This is your natural environment. Relate the vocabulary words to your observations of nature each day.

Many, many more suggested approaches to learning are presented for all eight intelligence types. Both parents and teachers will value Dorothy Fontaine's book for its practical application of Gardner's highly regarded theory. Each chapter of this book concentrates on one of Gardner's eight basic intelligence sources, and then outlines strategies for translating that intelligence source into the learning of words and their meanings. Approximately 125 new words are presented in each chapter--each word given with its definition, part of speech, and an example sentence. A master list of approximately 1,000 words at the back of the book brings all new words together for review. A series of "Quick Quizzes" throughout the book will help students gauge their word-learning progress.
