Marc Allen admits he's lazy. Not only that, but he considers it a key to his success. Here, he shows how anyone who is disorganized, inexperienced, overwhelmed, financially challenged, or just flat-out lazy can still create the life of their dreams. In the book's short, inspiring introduction, Allen describes the system he devised on his 30th birthday that completely changed his life — a four-step system so simple to understand and easy to implement that it could be called revolutionary. In the following chapters, he details the importance of each of the four steps — dream, imagine, believe, create — and shows how to forge them into a blueprint for success. A final section includes tips for staying on — or getting back on — course. A quick, breezy read, the book uses centered bold type scattered throughout to ensure that even the laziest readers can grasp its essence in just a few minutes.
